

# DataBridge™ Software

## For Improved Yield at Aggregate Facilities

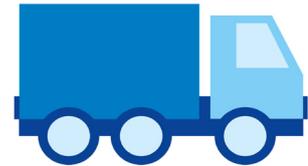

**Q:** "Traffic at our aggregate facility often gets backed up and transactions can be difficult to track, is there a better way?"

**A:** "Yes, DataBridge™ Software offers sophisticated capabilities to improve yield and reduce costs related to operating truck scales at your aggregate facility."

**Let's look at some key benefits you can achieve by implementing DataBridge™ at your aggregates facility.**

### Process Automation

- Expand hours of operation with no increase in labor costs
- Minimize waiting lines and back up at the scales
- Process vehicles faster with automated vehicle identification
- Optimize operations with in-yard traffic notifications

### Anti-Fraud Measurements

- Utilize photo eyes, gates, loops, camera, and other peripheral devices for greater control and security
- Instant communication between facilities, making weight discrepancies apparent quickly
- Receive instant notification of weighing anomalies due to improper vehicle positioning

### Customer Cash Register

- Simplify and streamline point-of-sale transactions and invoicing
- On-demand customer account performance
- Maintain and organize contracts and customer specific limits with ease, utilizing data accumulators
- Respond to price fluctuation with flexible pricing structures to meet your business needs
