

◆◆◆ Smart Count

◆◆ Fast Count

◆◆ **Basic Count**

◆ Simple Weighing

**Best in Class.** All the necessary functions for efficient counting are available at your fingertips with this Basic Count scale. Large, well marked keys with user-friendly tactile feedback and one key / one function operation make this the scale of choice in its class. By following the prompts on the LED screen, users will be guided through the counting process with ease. Train anyone in 60 seconds!

**Easy to Use.** METTLER TOLEDO makes work easy with large, well marked keys which employ user-friendly tactile feedback and one key / one function use. A built-in battery option allows you to use the scale wherever it is needed and the built-in depression on the weighing pan keeps rolls in place.

VIPER

**Simple Connectivity.** Connecting your Viper scale to your ERP or inventory control system has never been easier. You can also connect any other METTLER TOLEDO scale with a Viper counting scale, from 0.00005 lb to 12000 lb.

## Blue Viper Swift, Sleek and Simple Counting

METTLER TOLEDO
