Automatic Weighing and Labeling
for Hand Wrapping Operations

METTLER TOLEDO

Makes Your Hand Wrap Operation Faster, More Efficient

❏ Automatic weighing and labeling

❏ Generates labels with graphics, recipes, cooking instructions, etc.

❏ Touchscreen is easy to learn and use…saving time and training

❏ Prints Day-glo labels for increased merchandising

The 706 Auto-Labeler® lets you add components to make your hand wrapping operation more productive for both regular and peak periods. Add the SmartTouch Prepack System, Model 661 Handwraps, and Model 623 Sealing Belt Conveyor, and you have an efficient, space-saving semi-automatic system.

System with 2 Handwrap Stations

317 Applicator

Trim Cut

Great for the Grill

Model 706 Auto-Labeler

The 706 Auto-Labeler automatically indexes and positions trays for weight/price labels. Packages are conveyed one at a time onto the scale conveyor for weighing and then to the labeling position for applying the price label.

- Consistent price label placement for all tray sizes
- You can easily add an additional printer to print Day-glo merchandising labels
- Easy access to scale for manual weighing of large items

Model 661 Handwrap Station and Model 623 Sealing Belt Conveyor

The Models 661 and 623 work together to provide the hand wrapping, film sealing, and tray indexing function.

- 661 is available with either 2 or 3 film roll support
- A second 661 station can be added for higher throughput during peak periods
- 623 Sealing Belt provides uniform heat control for superior film seals

SmartTouch Prepack System

The SmartTouch Prepack System provides the software control, weighing, and printing capabilities for the 706 Semi-auto system.

- 8361 SmartTouch is an easy-to-use touch screen controller with multiple networking options, including Ethernet TCP/IP
- 317 Price Label Printer provides standard text and graphics printing and large label capacity
- 8270 Scale provides fast, accurate weighing

Specifications

Operating Temperature: 41°F to 104°F (5°C to 40°C), 10-90% humidity, non-condensing
Electrical: 115 VAC, 60 Hz, 2kVA, 230 VAC optional
Scale Capacity: 50lb x 0.01lb (20kg x 0.005kg)

8361 Controller
