

Optimize Operations Improve Flexibility

Versatility

Bakeries, deli counters, floral departments and backrooms: FreshWay Kiosk offers a multitude of applications that serve to improve customer experience, streamline operations and enhance data collection. Ticket printing, label printing, kiosk terminal info sharing and digital marketing are just a few of its capabilities.

Compact Design

The FreshWay Kiosk offers streamlined ticket printing functionality in a compact design. Benefit from dynamic real-time product and pricing information and asset management with a customizable and intuitive customer interface.

Enhanced Printing

The FreshWay Kiosk provides a variety of printing options to suit your retail counter needs, including a 2" label printer, a 3" linerless printer, and remote mounting. This flexibility enables the FreshWay Kiosk to adapt to changing printing needs based on application.

Intuitive Software

The user interface of the FreshWay Kiosk offers simplified operation with UC3 software, which is user-friendly for both new employees and experienced operators. Less training time means lower costs and more time for high-quality customer service.

FreshWay Kiosk

The FreshWay Kiosk is a fresh, future-proof way for food retailers to meet the needs of today's most demanding ticket printing and customer kiosk applications. From ticket printing for the floral department or bakery, to backroom prepackaging solutions, FreshWay Kiosk offers a solution to an array of grocery retail needs without a weighing platform.

The FreshWay Kiosk also runs with secure UC3 software, enabling total visibility and data across your enterprise. Streamline information and make real time decisions with all equipment running on UC3.
