

Easy to Use – Reliable – Robust BBA231-W Heavy-Duty Mobile Scale

Highly Visible Display

For excellent readability under any light condition, the BBA231-W features a large, 60mm high LCD display with an adjustable white backlight.

Simple Mobility

The BBA231-W is a fully mobile solution. The robust cart with its swivel caster wheels is easy and simple to steer and control, providing smooth transportability throughout the plant.

Secure Steering

The solid carbon-steel constructed cart is very robust and capable of transporting loads up to 600 kg (1,200 lb). The integrated wheel breaks offer additional security during the weighing process and parking.

The BBA231-W is a mobile scale for your daily use in dry areas, such as the receiving department or warehouse. It is the perfect solution when smooth mobile weighing throughout different areas of a facility is a must.

The NTEP and OIML approved, battery powered terminal with its large easy-to-read display is fast and easy to operate. Functions including simple weighing, counting, over/under checkweighing, accumulation and animal weighing are all operated using its 5 standard key (On/Off, Zero, Tare, Clear, Print). As the first of its class, the BBA231-W features two free definable function keys (F1 and F2). These allow for fast and easy switching between the different functions.

The NTEP and OIML approved platforms deliver accurate and stable weighing results. Six well positioned and adjustable overload stops ensure the best possible load cell protection.

Features

- Capacities of 300kg/600lb and 600kg/1'200lb available
- Platform Sizes 500 x 650 mm / 20" x 26" and 600 x 800 mm/24" x 32" available
- Large and bright 60 mm/2.36" LCD Display
- 6 overload stops for best possible load cell protection
- Open construction – no dirt traps
- Rugged and durable construction
- Simple to operate multifunctional terminal
- Connectivity via RS232
