InfoDay

2026 San Francisco InfoDay

METTLER TOLEDO AutoChem is pleased to invite you to the 2026 InfoDay for the San Francisco community of scientists, chemists, and engineers.
This one-day event is for those interested in learning about improving efficiency and innovation in synthetic reaction development, process chemistry, crystallization, safety, scale up, modeling, and more.

Agenda - August 19, 2026

09:00 Registration and Breakfast

09:30 Introduction

09:45 **Incorporating Supersaturation Control into Crystallization Development Workflow**
William Guy I Pfizer

10:30 **Technology Update: Next-Generation Reaction Automation with the New EasyMax 102i**
METTLER TOLEDO

11:00 Networking Break

11:15 **Two Decades Inside the Reaction: In Situ Monitoring and its Impact**
Ryan Baxter I University of California, Merced

12:00 Lunch and Networking

01:15 **Technology Update: Simplifying Scale-up with the New Mixing Web App**
METTLER TOLEDO

01:45 **Monitoring Pd Catalyst Speciation - Insights from Online HPLC-MS and Flow-NMR**
Isabelle Cai I University of British Columbia

02:30 Break out Sessions

03:00 Q&A and Closing

03:15 Meeting End

*Agenda subject to change
