Dear Sir,

ATEX EU Type Examination Certificate FM25ATEX0038X

I am pleased to confirm that the **SLL210 Level Sensor** has been certified under ATEX Directive 2014/34/EU in accordance with FM Approvals' Ex-Product Certification Scheme.

Your copy of the above Certificate is enclosed.

Please retain all the above documents in a safe and secure location as they represent the evidence upon which the compliance of the above product is based and you may be required to produce them, if challenged by a duly appointed authority, in support of your claims of compliance with the ATEX Directive. Please also ensure that the scope of the technical file is extended to include the details of the model variants as this is a condition of the ATEX Directive.

Certification is dependent upon continued conformity with all of the requirements of the Ex-Product Certification Scheme as set out in the latest edition of the scheme rules. Please read these rules carefully and contact us if you have any questions.

Yours sincerely,

Remco Klop
Certification Manager
