2158 VERTEX®
Floor Scales

Mettler Toledo® 2158 VERTEX is a fully electronic, highly accurate low profile floor scale designed for tough industrial environments, and can either be installed on top of the floor or in a pit. The VERTEX also contains a patented rocker pin suspension, which eliminates the need for field adjustment of suspension assemblies, bumpers, or overload stops. Optional ramps can make the scale accessible from all four sides and its low profile design minimizes operator effort when loading or unloading the scale platform. The 2158 is available in two different material types: a rugged epoxy painted mild steel or a 304 bead blasted stainless steel version.

### Features & Benefits

- **Rocker Pin Suspension**: Scale is self-aligning and self-centering, so that only vertical forces are transmitted to the load cell.

- **Versatile**: Wide choice of standard sizes and accessories to fit the scale to your needs.

- **Optional Stainless Steel**: Washdown Safe; ideal for corrosive environments.

- **NEMA 4X Stainless Steel Junction Box**: Extra protection for harsh environments.

- **Rugged Industrial Construction**: 100% End loading, ideal for concentrated loads such as forklifts. Mechanical overload stops integral to each load cell assembly (1,000 - 5,000 lb scale capacities only).

- **Stainless Steel/Hermetically Sealed Load Cells***: Provides maximum protection in harsh environments.

- **Hazardous Area Approval**: Factory Mutual Approved Load Cell when used with Mettler Toledo Intrinsically Safe Instruments.

- **NTEP Certified for Class III, 5000d Standards (COC# 91-097)**: Legal-for-Trade applications.

*All capacities except 1,000 lb.

### Optional Accessories

- **Forklift Channel Frame**: Allows easy movement of scale with a forklift. Heavy frame provides superior protection for the scale platform and weighing assemblies.

- **Scale Guard Frame Protectors**: Protects the sides from accidental forklift hits.

- **Truck Dock Frame**: Heavy-duty frame, which provides maximum protection for the scale in high traffic areas.

- **Instrument Column**: Convenient mounting of wall and desk top versions of Mettler Toledo instruments and battery packs.

- **Portability Wheel Kit**: Provides 3’x3’ and 4’x4’ models through 5,000 lb. wheeled portability. Comes with a bolt on instrument column.

- **Quick Pit Frame**: Floor installations are simple and easy. Frame doubles as pit coping and forms, eliminating expensive steps.

- **FastFab Option**: Greater flexibility of sizes which can be ordered.

The 2158 is certified for 5000d standards, but it can be factory tested for 10,000d (Not legal for trade) accuracy. This option is ideal for counting, inventory, batching, filling, etc. and includes a Factory Test Loading Report verifying the 10,000d accuracy. The 2158 can interface with the entire line of Mettler Toledo analog instruments and accessories. Mettler Toledo is the largest scale manufacturer in the world and has been a major supplier of industrial weighing equipment since the turn of the century. We have authorized sales and service offices throughout the U.S., Canada, and every major part of the world. Contact your nearest authorized distributor for details on Mettler Toledo Floor Scales...or any other weighing applications.
