The detailed composition of below mentioned formulation has been disclosed to RCC Product Certification Services by ANGST + PFISTER AG, Zürich / Switzerland with letter of May 19, 2004.

Based on this information we herewith can confirm that

EPDM 75.5/KW75F (EPDM 70.10-02)

is in compliance with the appropriate food packaging material regulations (see page 2 of this certificate) and therefore may be used in contact with food in

UNITED STATES OF AMERICA

Please note: The material may not be used in contact with milk or edible oils. No other restrictions are applicable for this product
This certificate is limited to the formulation disclosed to RCC as mentioned above. Any change of the formulation will void the certificate automatically. Any changes in this formulation must be addressed to RCC immediately

It is the responsibility of the manufacturer of the final article, that it complies with the specifications and limitations (end tests) in all applicable regulations.
