Economical and Efficient
Optimized Manual Wrapping

Easy to use
Operators easily wrap packages manually utilizing the Step-Saver's ergonomic design. The Step-Saver is designed for operator efficiency and improved productivity.

Flexibility
Select the controller that is best for your operation. Label printers offer high-resolution graphic capabilities for quality label display. Integrated software help manage inventory tracking.

Hygienic design
Stainless steel construction offers durability and enhanced food safety. The Step-Saver is easy to clean and maintain.

Step-Saver Hand Wrapping Station
Manual wrapping system

The METTLER TOLEDO Step-Saver Hand Wrapping Station is designed for all backroom prepacking needs. From the processing of packages too large to go through the automatic wrappers, to a secondary system for the busiest retailers, the Step-Saver will boost productivity, save money, and save space.

METTLER TOLEDO

- **Rugged efficiency with stainless steel construction**
- **Versatility with 60 lb. weighing capacity**
- **Easy cleaning and open design**
- **Simple and fast loading of film rolls**

Satisfying All Production Needs

The Step-Saver Hand Wrapping Station outfitted with a controller and label printer is the perfect solution for low-volume daily weigh, wrap and label needs. For larger retailers, the Step-Saver is an excellent backup system to handle peak shopping hours.
